

Posting Policy for St. Louis Area Christian Links and Midwest Christian Links

All items submitted for posting are reviewed for suitability before being published on St. Louis Area Christian Links or Midwest Christian Links. We assume no responsibility for material linked to but off the above-mentioned web sites. No commercial advertising of goods or services is needed, desired or accepted on these all-volunteer, free web sites.

All published email addresses are encoded to reduce unsolicited bulk email (SPAM). For details send a request to the address at the end of this document.

1. Events

Events must be non-commercial and open to the public. All posted events are hosted or sponsored by congregations, parochial schools or their agencies, not by web-site-only ministries or businesses with products for sale. Events must be submitted by individuals affiliated with or employees of sponsoring or hosting churches, parochial schools or their agencies.

2. Links

All published web-site links must point to web sites of congregations, parochial schools or their agencies, to organizations sponsored by the same or to sites with information about a posted event. They must be submitted by individuals affiliated with or employees of the church, parochial school, sponsored organization or agency that has administrative control of, and responsibility for, the web site or, in the case of events, by hosting organizations.

3. Newsletters

Organizations with a published link to their web site may have a download link to their newsletter. This can be accomplished by sending the newsletter through links on **Home** or **Resources** pages or by providing a direct link to the newsletter on their web site.

4. Services

All requests for services including fund raising requests, employee requests, volunteer requests, web site help, offers of surplus property and others must be submitted by individuals affiliated with or employees of requesting church, parochial school or affiliated agency.

This document, effective July 1, 2005, was updated on July 11, 2010.
